## MINING, BUSINESS AND STOCKS

## COLUMBUS CON. MAKES STATEMENT

Present Indebtedness Exceeds a Little More Than Fifty Thousand Dollars.

#### BUT THE PENDING ASSESSMENT

Will Clear Up Red Ink Balance-\$26,000 Per Month Will Soon be Realized From Mill.

A circular letter, addressed to the hareholders of the Columbus Consolifated mine at Alta, was placed in the mails today clearly defining the financial condition of the company and setting forth what may be expected in the future, after the pending assessment is paid in.

The financial statement which accompanies the letter, shows that the present indebtedness of the corporation is a little in excass of \$50,000.

ent indebtedness of the corporation is a little in excess of \$50,000.

The receipts of the company from Dec. 20, 1903 to Dec. 31, 1904, aggregated the sum of \$165,254.07, which includes a balance on hand of \$81.18 at the time of the issue of the last annual report. The ore sales during the period mentioned, amounted to \$10,447.53; treasury stock sales, \$48,550.15; assessment No. 1, \$56,440.50; notes payable, \$4,700; cash loans, \$5,335; emergency fund, \$110.13; merchandise from supply houses, \$11.006.45; borrowed from banks, \$22,743.83; Charles C. Moore & Co., \$5,875.

The items of disbursements are summed up in the following:
Paid Citizens' National bank, balance, \$2,246.; paid McCornick & Co., \$463.63; paid other accounts, balance, \$2,50; title and ground, \$27,814.50; mine supplies, \$11.453.25; timber, \$4,206.36; assaying, \$681.56; power expense, \$4,977.79; power pay roil, \$4,508.99; general expense, \$4,279.26; mine pay roil, \$28,387.86; salaries, \$5,468; machinery and repairs, \$24.11; office expense, \$720.90; boarding house, \$603.82; telephone expense, \$250.55; insurance and traces, \$1,139.40; power plant, \$25,315.66; building and improvements, \$1,487.09; interest and discount, \$1,222.70; stock certificates, \$494.90; concentrator, \$35,007.42; milling expense, \$118.53; mill pay roil, \$1,643.20; commissions, \$997.14; accounts receibable, \$1,032.56; cash on hand at boarding house, \$41.18.

The atatement shows under the head of resources that the cash price paid for mining claims was \$54.919.50; cost of development to date \$114,247.34; cost of electric power plant, \$45,574.69; buildings and improvements, \$3,100.49; cost of development to date \$114,247.34; cost of electric power plant, \$25,007.42; millings and improvements, \$3,100.49; cost of development to date \$114,247.34; cost of electric power plant, \$25,007.42; millings and improvements, \$3,100.49; cost of electric palma was \$54,919.50; cost of development to date \$114,247.34; cost of electric palma particles and the same particles and the same particles and

electric power plant, \$45,574,69; buildings and improvements, \$3,110,49; cost of concentrating plant, \$36,007,42; other of concentrating plant, \$36,007.42; other items, \$1,554.64.

The real liabilities of the company on Dec. 31 aggregated \$54,060.34, which in-cluded the December pay roll of \$4,-

This was offset by available assets to the amount of \$3,773.74, making the total indebtedness on the date mentioned, \$50,286.60.

The pending assessment should ne company 56,473.60. Of the total cap-lization of 300,000 shares, 17,632 shares of treasury stock remain unis-

In explaining the reasons for the pending assessment, which becomes de-linquent Feb. 11, the directors say; "One fact that should receive due weight when considering the question of assessment No. 2 is that on Aug. 15, when assessment No. 1 was levied, there when assessment No. I was levied there was a statement rendered by which it was shown that the necessities of the company up to September 1, 1904, required \$78,000, and that to meet this demand assessment No. 1 was levied, which put \$56,500 into the treasury, leaving a deficit of \$21,600. At the of the levy it was fully expected that the new concentrator then under construction, would go into commission not later than Sept. 15, and it was hoped not later than Sept. 15, and it was hoped that it would start off smoothly and take care of the deficit. But matters did not 'pan out' according to the forecast. The mill did not start until November 1—the very worst time of the year in which to begin a campaign in Alta—on account of delays in the delivery of machinery. Since Nov. 1 it has been running at about one-third capacity, intermittently, during the capacity, intermittently, during the first six weeks, but regularly since Dec We have received, therefore, only little revenue from that source, but our expenses have been going on just the same, all of which has brought us face to face with the financial condition as shown by the statement.

"Some of our creditors are pressing us for payment, and the directors and all of the stockholders that have expressed themselves are in favor of, and deem it advisable to levy assessment No. 2, which will take care of all of the company's obligations manyless.

which will take care of all of the company's obligations, maintain its good tredit and put it on a good basis.

"The winter in Utah, so far, has been exceptionally dry and continuously cold; as a result most of the concentrators of this locality are troubled on account of shortage of water. That is the reason for the limited output of the Columbus mill at present. Just as soon as spring opens up there will he an ample supply of water, and then steps will be taken to provide means to maintain a constant supply in the fumaintain a constant supply in the fu-ture. The operations of the mill so far have demonstrated beyond a doubt that it will handle our low grade ores to a

Figures are presented showing that from six lots of concentrates marketed in December, 326 tons, the average value per ton was \$21,39, from which the company netted above all expenses \$7,017.53, and represents less than one month's steady work at the mill run-ning at about one-third capacity. It is claimed that when the water supply increases sufficiently, which will be not later than April 1, the mill will produce about 1,000 tons of concentrates per month, having a gross value of \$28,000.

Connections have been made between

the Howland and Columbus tunnels, and the mine is in better shape for ore production than ever before. It is the intention of the management to immediately begin the sinking of a main working shaft below the present tun-nel level, and open up the ore bodies at greater depth. thus keeping an ample

ore reserve ahead.

Of the total capital stock of 309,000 shares, 17,632 shares still remain in the

NEW YORK A FEATURE

Of the Forenoon Call of the Mining Ex change.

The star feature of the forenoon trading on the floor of the Salt Lake Stock & Mining exchange rested with New York Bonanza. A rise in the stock was expected, for early in the day brokers received orders for it from Park City. Considerable inquiry for it by City. Considerable inquiry for it by local investors was also manifest. Starting with the sale of 100 shares at 45, the price advanced to 49% cents on the open board. Ingot also moved up a few points. Orders from Mercur to the amount of 10,000 shares were received by one brokerage firm. May Day opened weak and closed weaker. Daly continued in good tone, the stock being offered at 2.70, with 2.52 bid for it. Yankee Con. held its own, with no shares transferred.

The closing sales and quotations were posted as follows:

A. S. CAMPBELL, Stock Broker, 216 D. F. Walker Block IN GOOD HANDS.

The New South Columbus Directors Intend to Get Results.

The South Columbus Mining company's property will be in charge of a strong board of directors during the next year, and there is every reason to believe that development work will be pushed vigorously and economically, in the near future.

Thereafter it will be the policy of the board to hold regular monthly meetings, which has not been the case in the past, so the officials will keep in close touch with progress at the mine.

The South Columbus is one of the best located properties in Alta, and a good early faulter with its feestion. good many familiar with its location and conditions prevailing there predict that it will develop into a mine of the proportions of its neighbor, the Colum-

The next few months are likely to bring forth important physical condi-

tions at this mine. tions at this mine.
At the organization of the new board yesterday afternoon Tony Jacobson was elected president; Charles H. Bodel, vice president, and Arthur E. Snow, vecretary and treasurer.

BRITTANIA MINES.

G. H. Robinson Arrives and Tells of Conditions There.

Robinson, general manager o the Brittania Copper mines on Howe sound, just above Vancouver, in Brit-ish Columbia, arrived in the city last vening and expects to remain for a

The construction of the new milling plant at the Brittania has been prac-tically abandoned for the present owing to the heavy snowfall in that region. The property was left in charge of C. H. Dull, formerly associated with the T. & B. sampling works and the Yampa Smelting company in this state.

MINING MEN INVITED.

Asked to Confer With Legislative Committee on Mines and Mining.

Representative Harry Joseph announced today that all mining men are avited to meet the legislative committee on mines and mining tomorrow forenoon at 10 o'clock, at the City and

County building.
At this meeting the mining bills introduced in the Legislature will receive onsideration. Mr. Joseph says it is the desire of the

committee that representative mining men attend this gathering to offer such suggestions as they deem best. Suggestions or advice offered by mining men, he states, might prove helpful to the committe and to the members of

# **NEWHOUSE STAFF** SUBMITS REPORTS

On Condition and Needs of the Majestic Copper Mines in Beaver County.

#### PRESIDENT MUCKLOW LEAVES

With These in His Possession-Proposition of Samuel Newhouse to Majestic Directors.

William B. Mucklow, president of the Majestic Copper Mining & Smelting company, who has spent the past two months in the state, will leave for his home in Hartford, Conn., this afternoon. Mr. Mucklow will carry with him to the eastern offices of the company a proposition from Samuel Newhouse, in which, under certain conditions, the nature of which have not been released, the latter will accept the responsibility of the managing directorship of the Majectic mines and will give that company the benefit of the services of his staff, which comprises such men as M. M. Johnson, A. J. Bettles. Lee Hanchett and W. C. Thomas, who are reorganized as being at the top notch of efficiency in the knowledge of mining and metallurgy. The proposition of Mr. Newhouse will be presented to the board of directors of the Majestic company, upon the arrival of President Mucklow at the eastern offices and there is nothing to indicate at the present time but that it will be accepted unanimously.

Mr. Mucklow carries with him reports from the several members of the Newhouse staff, who recently conducted a thoroughly systematic examination of the mines and smelter. These reports are youched in the most favorable terms and, it is safe to say, presented some surprising revelations as to the been released, the latter will accept

some surprising revelations as to the commercial value of the Majestic properties to their chief, for it was not until after these reports were submitted to Mr. Newhouse, did he consent to have his name associated with the direction of the affairs of the company in

rection of the affairs of the company the future.

It has been stated that M. M. Johnson, who is at the head of the exploration department of the Newhouse mines, after measuring up the ore bodies between the 200 and 300 levels of the O. K., one of the Majestic's group, reported that there is now blocked out no less than 200,000 tons of ore! While Mr. Johnson did not extend his observations to the upper levels, other engineers have reported the existence of neers have reported the existence of several hundred thousand tons above the 200. This was likewise reported by Louis S. Cates, now superintendent of the Boston Consolidated mine, at Bing-

the Boston Consolidated mine, at Bingham, after a visit to the mine during the latter part of last year.

The Old Hickory copper mine, located a few miles out of Milford, is reported to have enough ore in sight at the present time to keep the company's smelter in operation for fully one year. This opinion is shared in by W. C. Thomas, who has had charge of the construction of the new concentrator of Thomas, who has had charge of the construction of the rew concentrator of the Newhouse Mines & Smelters corporation at Newhouse, and who was formerly superintendent of the Highland Boy smelter, near this city, and who, previous to that, was associated with the Butte & Boston Copper company at Butte. With some alterations, Mr. Thomas says, the Majestic smelter can be placed in commission within 60 days.

The Harrington & Hickory mine, it has been learned, measured up with about 90,000 tons of silver-lead carbonate ore.

nate ore.

The mines of the Majestic company have been resurveyed by W. M. White, the company's surveyor, who has brought the maps of the underground workings up to dete.

Ed F. Frendenthal will continue to

serve the company as superintendent

of mines.

Now that it is practically certain that Mr. Newhouse and his staff will soon be in charge of affairs, President Mucklow feels that a great responsibility has been lifted from his shoulders. It has been his desire for bility has been lifted from his shoulders. It has been his desire for months to see the operation of the mines in charge of thoroughly trained men, and it seems that this is about to be acomplished.

The mining public well understands the part he has played in the past in bringing chaos into order. Taking hold when the company was practically wrecked, largely through his efforts.

wrecked, largely through his efforts the company's credit has been re-es-tablished, and finally placed upon a firm, substantial basis.

#### CONCENTRATES.

A carload of Creole lease ore was reported in today's market.

Eight carloads of Tonopah ores are at the Samplers today. Supt. Ed F. Freudenthal of the Ma-estic mines will return to Milford this

Supt. Zeigler of the Ohio Copper com-pany was in the city during the day to confer with Managing Director Ca-

Will Employ Locked-Out Men.

New York, Jan. 16.—Dissensions among members of the Building Trades Employers' association have culminated in an announcement by the Thompson-Starrett company of its in-

Thompson-Starrett company of its intention to employ locked-out members of the Carpenters' union.

The Employers' association has kept the Brotherhood of Carpenters out of employment in this city for five months, having refused to reinstate the 2,000 members unless they join the new association of carpenters, which was organized by the employers to take the place of the locked out union. The carpenters locked out had, it was claimed, violated a point in the arbitration plan by joining in a sympathetic strike.

Members of the locked out union declared they would starve rather than assent to the employers' demands, and it is said that much suffering has ensued among some ofthe families. When the news reached headquarters that work would again be commenced, there was much rejoicing.

Take - back your money and keep the tea-you may give it away if you like.

### DEMAND FOR STOCKS GROWS

Gains Predominated While Prices Advanced During First Hour.

#### READING THE CHIEF FEATURE.

Large Blocks of Favorites Were Taken -Were Some Few Reactions

New York, Jan. 18 .-- In the stock market oday opening dealings were largely con-entrated in the recent favorites, Gain redominated and the few losses were small. Prices advanced steadily during the first hour, the large demand for repcsentative railroad stocks and specialties contributing to the strength of the general list. Reading was the chief feature and rose to 85%. Large blocks of various other favorites were taken, and gains approximating a point were numerous Other gains of consequence were St hansas & Texas, Kansas City Southern preferred, Amaigamated Copper, Sugar, brooklyn Transit and Smeiting I to es. Northwestern preferred 2½ Bunalo Rochester & Pittsouing 4, and charago, st. Paul, Minneapois and Omana 5. Amagamated Copper lost its rise before Il o chock.

Reading's aggressive rise to 86 was through offerings of many 5,000 shard blocks and upwards, one string of successive quotations footing up 27,000 snares. The general list responded unevenly. Union Pacific rose 1½, Northwestern preferred 5 and New York Central, Rock isand, Reading second preferred and Virginia-Carolina Chemical 1; St. Joseph and Grand Island first preferred fell ½. Before noon Illinois Central reacted 1 and Reading 3, and trading suddenly became dull, until Ontario & Western shot up 2 points.

Bonds were firm at noon.

The buoyant outbreak in the coalers imparted a considerable negree of strength to the entire market, although the traders frequently sold the high priced industrials and the metal stocks whenever a profit showed. A reaction of over a point in Ontario & Western started realizing all around the room and the market fell back a good fraction.

Selling orders were distributed in the general market under cover of the tremendous buying of Reading, which advanced it to \$73. Rock Island was also heavily bought and approached 38, but important stocks otherwise made little or no progress upward during the afternoon. Colorado Fuel gained 1. The market reflected the professional pressure, Union Pacific leading and running off a point from the best.

flected the professional pressure. Union Pacific leading and running off a point from the best.

The rise in Reading extended to 5 points but the growing weight of the realizing cisewhere broke the market with some violence. The quick reaction largely wiped out the earlier gains and carried some important leaders under last night. Illinois Central after rising 2% on its extra dividend reacted 2% and Reading reacted 1%. There had been gains established in Reading second preferred of 3. Central Railroad of New Jersey and Steel Foundries preferred 1% and Souff 5. Hocking Valley preferred 1% and Souff 5. Hocking Valley preferred 1% and Toledo, St. Louis & Western I. Quick profit taking by the room shorts railted the market. Baltimore & Ohio rose 1%. The closing dealings were active and strong.

LONDON WOOL.

London, Jan. 17.—There was a large attendance at the opening of the first series of the 1905 wool auction sales today. Several Americans were bidders for crossbreds, which they secured at 5 per cent advance, and also several lots of good merinos. The transaction was small, home and continental buyers deducted the salos. New Zealand new clip and good stocks were in demand and were taken by home buyers at prices in sellers' favor. A moderate supply of Cape of Good Hope and Natal went to home and foreign buyers at rates unchanged to 5 per cent dearer. Buenos Ayres wool sold well.

#### MICHICAN ENDORSES PRESIDENT'S POLICY

Lansing, Mich., Jan. 18.—The state house of representatives by a vote of 55 to 28 has adopted a concurrent resolution introduced by Representative Van Keuren, endorsing the policy of president Roosevelt with regard to securing greater powers for the interstate commerce commission. The resolution calls upon the Michigan mem bers in Congress to support the presi-dent. In urging the adoption of his resolution, Representative Van Keuren declared that a number of Michigan men in the celebrated fruit belt had heavy driven cut of business by disbeen driven out of business by dis-criminating railroad rates. The op-position to the resolution was based upon the assertion that it was not a question for the Michigan legislature to meddle with

When the resolution reached the state senate it was after a brief debate re-ferred to the committee on federal re-

CHINESE SCHOLARSHIP.

Viceroy Sheng Establishes Five At University of California. Berkeley, Cal., Jan. 18.—His excellency, Sheng, viceroy of Chi Li province, China, has been induced by Prof. John Fryer of the department of oriental languages at the state university, to provide five scholarships for Chinese tradeats now at the university.

provide five scholarships for Chinese students now at the university. The first installment of the funds has been received by Prof. Fryer, and five fortunate Chinese students have been selected as beneficiaries of their distinguished countryman's liberality. The students chosen are later to be supplied with employment in China, and already can dream dreams and see viscands.

with employment in China, and already can dream dreams and see visions of political place and preferment at the hands of the powerful Sheng.

This is the first instance on record, according to Prof Fryer, who is an authority on oriental affairs, and thoroughly versed in all the history of the orient's relations with the west, that scholarships have been given by a Chinese official to the students of any American or European university. American or European university.
